WOW! Meticulously maintained home on 2+ acres in Ivy Oaks! Enjoy the shady, fenced back yard with woods adjoining a cleared pasture. Hardwood floors gleam throughout the home. In the rear of the home, is a bright kitchen with maple cabinets, eat-in area, solid surface counters, and a cozy great room with wood-burning brick fireplace. Upstairs, are four generously sized bedrooms with two remodeled bathrooms including a jetted tub and frameless shower in owners suite. A bonus room over the garage with supplemental HVAC accessible by rear stairs and the owner's suite makes a great playroom or office. Outside, enjoy the large screened porch and deck overlooking the gently sloped yard. An outdoor shed and two car garage offer great storage too!
